javaheaxy Hello, I have this problems, I want to change the structure of my db but I don't know how can I do this because it is being used by other developers. When I try to compare databases with MySQL Data Compare, it take a too long time to compare. What is a solution to this problem and how to compare databases in a faster way? May 6, 2018 When I try to compare databases with RedGate Mysql Compare, it take a too long time to compare. What is a solution to this problem and how to compare databases in a faster way? A: MySQL Compare documentation explains this quite clearly. You can generate the comparison script from your local machine, and then run it on the target system. This includes an example for comparison of the CREATE statements for the two databases. Petraeus reportedly hasn't been charged with any wrongdoing, but it's not clear what he could have been prosecuted for, since leaking the name of a covert CIA officer "was not a crime when [he] did it." A federal court in Washington on Tuesday issued a subpoena ordering the National Security Agency to turn over a copy of its inspector general report into leaks of classified information that sparked protests at the US Embassy in Cairo earlier this month. The report, due to be released by the NSA's inspector general in mid-March, is expected to criticize former CIA Director David Petraeus for providing classified information to his biographer, Paula Broadwell. "The central question is what information about classified and sensitive information the former director of the CIA gave to Ms. Broadwell, a former volunteer agent. The answer to that question is, from all that is known, no," countered broadwell's attorney, Tina Foster, in an email to the Detroit News. In a decision dated February 3, US District Court Judge Gladys Kessler issued a subpoena seeking the NSA's version of the report, as well as any other records that may shed light on the matter. The Department of Justice has yet to reveal what Petraeus is alleged to have done that violated the Espionage Act, although it's widely suspected the former four-star general provided classified information to his lover, then known as Paula Broadwell.
