I had an application installed on my memory card that uses the Microsoft.Phone.Tasks namespace and I am attempting to transfer it to the SD card. When I attempted to do so I found out that the application is apparently incompatible with.zip files. Is there any way I can convert the.xap file into a compressed zip file in C#? A: You can try this: EDIT: found this link, that might have a library that you can use: 1. Field of the Invention The present invention relates to an output circuit, and more particularly, to an output circuit capable of causing a constant-current flow through an output transistor. 2. Description of the Related Art A DC-DC converter provides a direct current output from an alternating current power source which is generally supplied from a commercial power system. One of the DC-DC converters has a configuration as shown in FIG. 1 in which an output transistor 10 is connected in series with a free-wheel diode 20. An end of the output transistor 10 is connected to a power source terminal, while the other end of the output transistor 10 is connected to a node N which is connected to a capacitor 40. A reference potential VB is applied to the node N, as seen from the free-wheel diode 20. When the output transistor 10 is turned off, the capacitor 40 is charged by the current flowing through the output transistor 10. When the
