AutoCAD Cracked Accounts is the second most popular CAD software, after CATIA. According to Gartner, AutoCAD's market share is 13.1% for 2D engineering and architectural design software in 2011, 10.6% in 2012, and 9.4% in 2013. Autodesk's 2012 revenue was \$2.5 billion, which represents almost half of the CAD software market's revenue. For 2011, Autodesk's revenue was \$1.2 billion. Released in early 2013, AutoCAD LT became Autodesk's third operating system for desktop-based CAD software. The new application is based on its award-winning, industry-leading AutoCAD technology and was developed to operate on low-end, PC-based workstations as well as mobile and tablet devices. In May 2013, AutoCAD LT for Mac OS X was also announced. AutoCAD LT for Windows is bundled with Autodesk Data Management, a cloud service that enables users to collaborate on drawings with others. With the launch of the AutoCAD LT operating system, AutoCAD 2010 and AutoCAD LT now share the same user interface. The first release of the iOS app, which was initially available to only a few countries, was available in 2014. The AutoCAD mobile app was released for Android, Windows Phone 8.1, and iOS in 2015, along with the release of AutoCAD LT for Android and AutoCAD LT for iOS. AutoCAD LT for macOS was added later, in 2016. AutoCAD LT has been available on Linux since 2009 and was available on the Apple Mac App Store on iOS since 2014. The iPad version was first released in January 2014 and the Android version was released in October 2014.
