## **What is in this package?**

BRAND NEW GAME FOR THE iROOM PLAYER

The game is supported by the Japanese iROOT, the two apps "Regular" and "Touch version".

The graphics are designed for mobile phones and tablets. So, they are bright and colorful, but also impressive in other ways. - effective, destructible environments, with lots of detail. - high resolution graphics, able to deliver spectacular effect. - simple controls, that can be mastered with a single hand.

The sound design: it is simple and effective, with more than 5 languages to choose from. - the soundtrack is orchestrated in a rythmical way. - but a simple piano is present at the beginning of the game. It will be your friend to the end.

The game begins from the moment the camera focuses on the player on the battlefield. You are behind the barbed wire fence at the edge of the battlefield. The enemies are outnumbered by less than one hundred.

Each time you defeat the enemies, you can use each of the three available weapons on the shoulder. And you can equip them again and again, even after the battle. The specialities: - a big battleaxe is a great weapon to face tough monsters - a hammer is a big weapon with good precision. - but a normal crossbow is also a good choice.

For each weapon, you can use one of the special attacks that can be extended over time. These attacks are very powerful and can even kill your enemies.

Use the bonus power when your special attack is completed.

The stage progression allows you to fight new enemies with skilled weapons and to equip them for further battles. You even jump through a big canvas ship, where you can switch your backpack between two different weapons.

At the end of each four stage, you receive a new weapon. The weapons are also connected by the inter-
