We just found it by chance in a video. But to be honest I have seen a few action games like this on youtube. But I will give it a try and let you know the next weeks. Somebody who didn't get a key yet, because there are pre-orders available. I do like the screenshots and animations, but I'm not sure if I would play this game, and I'm not sure what about it is that makes me like it. I can't put my finger on it. The only good thing I can say for it is that it seems like a nice looking game, but there are more things like this that seem like this that aren't really THAT interesting to me. So I'll wait for reviews to know more. « Last Edit: March 30, 2013, 11:55:33 PM by DnDHero » Logged Because I can,also because I don't care what you want.XBL: OriginalCeeKayWii U: CeeKay Sometimes I don't download games until after a preview finally comes out, and that's just my situation. I had pre-ordered it and this was the only game preview that came out where I hadn't started right away. Hopefully this one won't have too much meh about it and you'll put that action forward. Curriculum Credit for TESOL Course Students

Have you enrolled in the TESOL Certification courses at Carnegie Mellon University? If so, we encourage you to consider certifying in a subject other than TESOL. While TESOL is considered by many to be one of the most rigorous certification programs in the world, other certifications are more in line with the resources available

Snowfall was a major blow to the Himalayan nation this spring, reducing homes to snowdrifts. The government said on Tuesday that 89.2mm of rain fell in Myanmar's Monywa and Ten mile departments, and was a bit higher than the average in June. The short-term peak has however now ended, and the rain is expected to reduce considerably in the coming days. Numerous flood-related incidents in May were triggered by an accumulation of heavy rain, causing considerable damage and forcing many villagers to flee their homes. Rainfall so far this year has been substantial compared to 2010/2011 - a hot year which was marked by severe floodings. In a piece for Vogue, "Beauty and the Beast" producer John DeLuca shares his philosophy on makeup, putting such a statement forward so as not to be too promotional, if that makes sense. Turns out between the lines, he's got some good, hard tips for the savvy beauty shelf-opener in you. So, we've got a lot of tips for the runway walker, we've got tips for the weird eyebrows, but what we're really looking for is that content that gets you into someone's closet and pushes them out of their skin to reveal something greater. I'm attracted to "beauty beyond the bounds of makeup or features." The idea of an exposed and unapologetic beauty that is clear and believable. It's not about perfection, it's about revealing a fantastic and magnetic person that's beyond their skin and their makeup, So, like if you're dating someone and they're so beautiful, but you go in there and there's weird lipstick smudge somewhere, like, that was quite bad. So, it's pushing people to allow that - to allow them to

reveal that beautiful aspect
