* **Photoshop** (The application Adobe Systems Inc. provides for editing digital images on a computer. It comes in both a full version as well as free and trial versions.) # Chapter 2. Getting to Know the Magic Wand Some programs in the Image --> Adjustments menu are used to select an object or area of the image. This feature is more commonly known as the Magic Wand. This feature enables you to click on any spot in the photo, and Photoshop selects the area or object that you clicked on to do your editing. The Magic Wand makes it easy to remove objects from an image, put a filter on an image, or change the color of a photo. This chapter explains how to use the Magic Wand to select areas of your image, how to add, move, and change the size of objects in your image, and how to use filters. # Selecting Objects with the Magic Wand The Magic Wand is a tool for selecting objects in an image. This tool is a little tricky to use because you first have to select the area of the image you want to select. If you drag around on the image and then press the spacebar to start the selection brush, Photoshop automatically selects the area you dragged. But as a beginner, you may find it hard to actually select the area of the image you want to edit. When you use the Magic Wand tool to select objects in an image, it selects the object closest to the center of the selection box. To select the object you want, you have to click that object. Here are some things to keep in mind when using the Magic Wand tool: * **If you want to select a whole block of color, choose a color that's different from

They make fun of the PAC-12 all the time. I just love that place, and I wish they were better than the worst team in the SEC.” Missouri’s starting quarterback is more than 100 years old. This is one of the best teams in the SEC. It would be an absolute no-brainer to make the conference title game a one-game playoff, but we’re not doing it. It’s too much to ask of a seniors, and we don’t want to screw up the season for them. “We have the best running back in the conference in Samaje Perine. We need to play with these big dogs, and the best way to do that is to make the Big Ten title game a one-game playoff.” When talking to schools, it’s important to remember, “We’re not gonna do that” or “We’re not gonna do that next year.” Even if you’re not going to give X, if you’re going to try to get X, you need to clear your path in order to make that happen. Even if it’s a year away, that’s important. If you’re being a Trump supporter and you want to get the wall built, you need to clear your path to make that happen. You need to clear your path to get to “No Child Left Behind.” You need to clear your path to get to immigration reform. You need to clear your path to get to major tax reform.
