Panel B shows the PERT model with its assigned color-coding.Rainbow colours are streaming in for the newly built Church of Santa Cruz (CSC). Thanks to the artwork of Israeli artist Erez Aloni and the support of Dibi Gilad, this 170-metre-long church – the largest building in the world to be entirely covered in fabric – will now make its grand opening on Saturday, March 27. The CSC was conceived of, designed and built by the Diocese of Moshi (Dobiri-Harambee-Dobirimabiko-Muasya) in collaboration with Grupo de Arquitectura Gracilhanes in Argentina and the Israeli architect Tomer Hanavi. During the final stage of construction last winter, the spectacular cover was installed across all the panels of the church – 18,000 metres of rainbow-coloured fabric in the colours of the rainbow. The CSC now stands as a permanent reminder of the mission of the church of Jesus Christ and his teachings of love and peace, and of the love, life and the light that these teachings contain. Dedicated to the love and peace of Jesus Christ The church is dedicated to the providential love of Jesus Christ and his love for all his people. For almost c6a93da74d
