

come and join rome, a city on a collision course with its future, an empire on the edge of a breakdown of society. in order to reach this status, the rome of today must achieve greatness. to achieve this, rome must build more and more structures across the island, until a city spans the entire island and becomes a metropolis.city objectives - after a period of introspection, several characters who had lost their sense of purpose, duty, and honor, decide to come together and make things better. the concept of collectivism works to ensure the survival of the larger city. with so many moving parts, it is vital that each part is correctly coordinated for a successful city. the team of leaders aim to create a city that is more open, trustworthy, and prosperous than any other place in the world. to get a bigger city, rome must build more and more structures over time. cities grow, they change, and they move. certain structures are integral in making a city tick. some are for public use, others serve a purpose that is best kept as a secret. once rome is finished, the island's development stops, and the island stagnates for decades. while rome's main city is filled with skyscrapers, the city's core is currently an old rundown neighborhood. in these times, people tend to stay at home. they're not afraid of the city any more, they're too busy playing. as a new century comes, the island is abandoned. not a single citizen on the island, neither the good, nor the bad. many monsters roam the island. since all of the population has gone, the monsters are now the rulers, and protect their kingdoms with the iron fist of their territory.
