if it was worth a watch. in my honest opinion, it is not a great film in anyway, it is pointless and pointless in bad way. it lacks any form of a plot and in regards to the acting, it is embarrassing. this is a film that is made to appeal to a younger crowd. not that it is a bad idea. but the casting for this

film is so bad it is unbelievable and what is even more frustrating is the glaring lack of talent the filmmakers have employed. this film is embarrassingly bad. it is an instant crime. in an way it is kind of a film of outliers, which are pieces of cinema that one has to search out rather than go looking for,

which the major studios don't really produce anymore, certainly not with any sense of art or anything, but there are exceptions. as i say, it is kind of a film of outliers. who is this woman, what is the planet she is from, what is she doing there and what is it about, and that's not to say it is a good film, but it's a lovely film, a real pleasure. and the performances are strong. if you see it, you'll see.

for everything it's quite good, quite entertaining, it is quite an enjoyable experience. 5ec8ef588b
