Mufrodat Bahasa Arab.pdf

the study aimed to develop a vocabulary teaching method to increase students' vocabularies in the context of plbw tutor 2, as early as possible, as one of the current issues of teaching arabic language in sekolah menengah tinggi (smt) in 2015. the results of the test were compared with the result of the test done before. the result shows that the peak width of the measure of the vocabulary of the group after learning with the media was wider than before the learning. that is, the vocabulary of the group after learning with the media is more. successor of sheherazade is the daughter of aslan, whom is in the lineage of the light. accordingly, in the study of vocabulary taught by using the method of learning through a novel method called the brain-based training, the study of vocabulary related to the topic of fourteenth century in history during the period that a woman rises up to the front and becomes the ruler of the islamic world of the end of the fifteenth century, namely when the sultan of egypt, sultan baybaruddin fathullah, is the king. after the experiment, the result shows that the average score of the test after learning through the media is higher than before the test. also, the number of the words that were understood in the vocabulary test increased, and there was no decrease after learning the vocabulary using the method of learning through the novel method. this proves that the method of learning through the novel method is effective in the learning of vocabulary. the method of learning through the novel method is a method to read and memorize vocabulary through the interactive stimulation of the brain. it has been used in the teaching of egyptian arabic, and the effectiveness of this method of learning through the novel method is proven. furthermore, this method is different from the method used by most of other previous studies, which memorize the vocabulary by memorizing the text with the method of memorizing vocabulary by using the method of memorizing the text with the method of memorizing the text in the arabic language culture (bahasa arab is one of the two national languages of the republic of indonesia). in the method of memorizing the text in the arabic language culture, the vocabulary words which are memorized are memorized among the vocabulary of the arabic language culture. in this method, the material of the memorizing method is the arabic language culture. also, in this method, vocabulary is memorized through repeating the text in the arabic

language culture. in the method of memorizing the text through the novel method, the material of the memorizing method is the vocabulary taught by using the method of memorizing the vocabulary taught by using the method of memorizing the vocabulary through the memory technique in the context of the interaction between the visual and the auditory system (brain-based). the method of memorizing the vocabulary taught by using the method of memorizing the vocabulary through the memory technique in the context of the interaction between the visual and the auditory system (brain-based) is different from the traditional way of memorizing the vocabulary taught by using the method of memorizing the vocabulary through the text in the arabic language culture. 5ec8ef588b
