

Samsung Yateley Gu46 6gg Uk Specifications Zip _TOP_

the samsung galaxy note 8 features a 6.3-inch qhd amoled display, powered by a 64-bit octa-core cpu and mali-g71 gpu, and is powered by a 3,030 mah battery. it also features an s pen that can capture and sketch signatures and emojis. the galaxy note 8 features a 6.3-inch, 3840 x 2160 super amoled fullvision display with a 2.7d curved super amoled screen with minimum 3.2 million pixels. this is front-loaded with the standard 12-megapixel telephoto lens camera with a 2x optical zoom lens and a redesigned, ultra-wide 12-megapixel sensor with 1.7x optical zoom lens which should give it the ability to provide detailed images. although the galaxy note 8 sports a 6.3-inch screen, it's actually a little on the smaller side for a phablet. the two cameras are absolutely stellar, with a 12-megapixel standard lens (one with 2x optical zoom) and a 12-megapixel wide angle lens with 1.7x optical zoom. although the camera module is smaller, thanks to the dual-lens design, it should still be able to capture decent-quality images. samsung will be featuring the new note 8 with an s pen, dual-rear 12-megapixel cameras, as well as 6gb of ram and 64gb of internal storage. however, buyers won't be happy that the samsung galaxy note 8 will come only in gold and silver tones. this is one phone that will eventually hit our shores at \$950, so it's imperative that you have a deep wallet. * please note: the "performance" column should only be used as a comparative tool against other ssds. performance test results will vary based on the storage configuration and other variables. performance will vary based on the attributes selected on the product details page (e.g. storage capacity, cache memory, available memory, etc.).
