It is designed to salvage data from the OST files saved on your computer, if the Exchange server crashes or severe damage occurs. Extract data from local OST files Even if the dedicated server fails, the Exchange offline folder files on the client computer still contain email texts, attachments or contacts, afferent to your Exchange email account. The software can scan the orphaned or corrupted Exchange offline folder files, in OST format and retrieve the available data from them. After extracting un-damaged data from OST files, the software can save the pieces of information in PST files, that can be opened on other applications. You need to simply select the specified OST file and select the output file format. The supported file types are PST, compatible with different versions of Microsoft Outlook. Single file recovery or batch processing DataNumen Exchange Recovery can process an OST file individually, or manage multiple such documents simultaneously. You can load multiple files to the waiting list and let the software scan them, extract data and save it to your computer. The Exchange offline folder files are generated automatically when you create an Exchange account. However, if you do not know where they were saved, or if they were moved to a different location, you need not search for them manually. Instead, you may select the Search function and let the software scan the computer and locate the supported files. Output options You may set the software to automatically split the output files into multiple documents, if their size is larger than a specified value, or to apply heuristic root folder recovery. Moreover, you may select which of the five different advanced recovery methods you wish the software to perform. Conclusion DataNumen Exchange Recovery is an

I've read this post and if I could I want to suggest you some interesting things or suggestions. Maybe you can write next articles referring to this article. I want to read even more things about it!... I've been browsing on-line more than three hours as of late, yet I by no means found any attention-grabbing article like yours. It's lovely value enough for me. In my opinion, if all webmasters and bloggers made just right content material as you did, the internet will likely be a lot more helpful than ever before. "Always do what is right, even if it is difficult." by Aeschylus. Good web site! I truly love how it is easy on my eyes and the data are well written. I am wondering how I might be notified whenever a new post has been made. I've subscribed to your RSS feed which must do the trick! Have a great day! Hey there, You've done a great job. I'll certainly digg it and personally recommend to my friends. I'm sure they'll be benefited from this website. I'm truly enjoying the design and layout of your site. It's a very easy on the eyes which makes it much more pleasant for me to come here and visit more often. Did you hire out a designer to create your theme? Excellent work! After exploring a number of the blog posts on your website, I honestly like your technique of blogging. I book marked it to my bookmark webpage list and will be checking back soon. Please check out my web site as well and let me know how you feel. Having read this I believed it was extremely enlightening. I appreciate you taking the time and energy to put this content together. I once again find myself personally spending way too much time both reading and commenting. But so what, it was still worth it! I do accept as true with all of the ideas you've introduced for your post. They are very convincing and will certainly work. Still, the posts are very quick for beginners. Could you please prolong them a little from next time? Thanks for the post. I am also writing to let you be aware
