LONDON (Reuters) - Britain's government is building itself a case to stay in the European Union by saying that plunging to leave is worse than the financial instability and economic uncertainty expected if it stays. Ministers say they want to take the best of both worlds by being in the EU while also having the right to strike financial deals with the bloc's partners. They say it gives them maximum flexibility, keeps the economy stable and are arguing that the economy has only limited capacity to mitigate the risks of leaving. Chancellor of the Exchequer Philip Hammond said on Thursday he had written a letter to Tory rebels in parliament in which he argued that current

projections for the economy after a decision to leave the EU showed leaving would be the wrong choice. The invention relates to a locking device for a lockable door, in particular for a hatch door for an automotive vehicle, for locking simultaneously the two door panels of the door in the closed state, the inner door panel having means to be inserted into a cavity of the outer door panel, and a lock pin guided into a lock bore of the inner door panel and cooperating with a keeper. Such a lock device is described in U.S. Pat. No. 5,076,161. The invention is based on the object of producing a further structural development of a locking device of the initially named type ensuring a substantially improved operation reliability.

- Improved Transformation
- Selective Blur with Vignette
- Enhanced Clone Stamp
- Faster Selection
- New Lasso Select Tool
- New Camera Raw
- More Control over RGB values
- Grid Layout

More than a decade ago, Adobe InDesign emerged as a dominant force in the production of print, advertising and packaging design, and the market has just seen a major shift to InDesign as the de facto standard for the design and production of print and digital publications. It is important for any print shops to keep up to date with the latest and greatest features of InDesign, and this version is a great opportunity to make the most of your printing and publishing workflow. The Flash Photofill feature borrows the best aspects of Photoshop and the web to bring out the natural colors of a photograph, replacing the standard, flat look that many photographers have acquired over the years. With the new Depth Masking feature, users can now remove layers of elements in an image, such as paper, glass or jewelry, while leaving the subject untouched. The new features help users create more exciting and memorable content by expediting the process of creating compelling content. Top Ten Photoshop Features
